Minime vero, inquit ille, consentit.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. [Quo modo autem philosophus loquitur?](#) Intellegi quidem, ut propter aliam quampiam rem, verbi gratia propter voluptatem, nos amemus; Sed residamus, inquit, si placet. *Sic enim censent, oportunitatis esse beate vivere.* Tum ego: Non mehercule, inquam, soleo temere contra Stoicos, non quo

illis admodum assentiar, sed pudore impediō; Duo Reges: constructio interrete. [Et quidem, inquit, vehementer errat;](#)

At hoc in eo M. Sed emolumenta communia esse dicuntur, recte autem facta et peccata non habentur communia. Quam haec sunt contraria! hic si definire, si dividere didicisset, si loquendi vim, si denique consuetudinem verborum teneret, numquam in tantas salebras incidisset.

- Et hi quidem ita non sola virtute finem bonorum contineri putant, ut rebus tamen omnibus virtutem anteponant;

Copy text to clipboard!

The button copies both formatted rich text and wellformed HTML5. Paste it wherever you need it; in your text-editor or Rich Text field!

About this Lorem Ipsum generator

Yes, there are a lot of Lorem Ipsum generators already. Even when we started with this one in 2009. But all others lack features, or are too limited. Here's what Loripsum.net has to offer:

API

Loripsum.net has an API to generate placeholder text to insert it in whatever software/webapp you want. See below for details.

Customization

Most generators only output some paragraphs of about the same length. Sometimes you need lists, headings, long paragraphs, etc. The website/magazine that you're designing probably isn't going to be filled with happy uniform paragraphs, so your placeholder text should reflect that.

Different text, all the time

Most generators output the same results every time you request some text. Loripsum.net uses the full text of Cicero's "De finibus bonorum et malorum" to make sure you get a different placeholder text every single time.

How to use the API

Just do a GET request on loripsum.net/api, to get some placeholder text. You can add extra parameters to specify the output you're going to get. Say, you need 10 short paragraphs with headings, use loripsum.net/api/10/short/headers.
